PROFESSIONAL SUMMARY

Full-stack developer and Computer Science graduate building educational, community, e-commerce, and automation applications. I have developed independent projects and contributed to team projects. I am learning AI and applying what I learn to current applications.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, HTML & CSS, Vite, Angular (MEAN training)

Backend and databases: Node.js, Express, PostgreSQL, MongoDB, Python, SQL

Tools and other: Docker, Git and GitHub, C++, Java, UI/UX design, AI fundamentals (learning)

PROJECTS AND TECHNICAL VOLUNTEERING

Confit Fashion E-commerce | Frontend and backend contributor

A fashion e-commerce application supporting product discovery, shopping carts, and checkout.

Contributed to frontend and backend development within a team. Project features include product browsing, cart and checkout; the public deployment was paused when last checked.

Technologies: React, TypeScript, Python, FastAPI, PostgreSQL, Tailwind CSS

Madar Educational Platform | Independent developer

An independently developed learning platform for teacher discovery, lesson access, exams, subscriptions, and educational opportunities—all in a dedicated student workspace.

Student workspace with teacher discovery, lesson and exam areas, subscription views, and educational opportunities.

Technologies: JavaScript, HTML, CSS

Sign-in: https://madar-platform-lyart.vercel.app/#/

College Task and Community Management Platform (CTPM) | Independent developer · Technical volunteer

A supervisor-facing platform for managing community tasks and performance, built around the needs of my college community.

Technical volunteering project for task and community management, including WhatsApp messaging automation.

Technologies: TypeScript, JavaScript, PostgreSQL, Docker, Shell, HTML, CSS

Sign-in: https://epnu-management.vercel.app/

SympleLegal — Legal Services Platform | Independent developer

A legal-services platform demo with lawyer discovery, professional profiles, and a community for clients, legal professionals, students, and law firms.

Demo includes legal-specialty browsing, sample profiles, role-specific entry points, and a community forum.

Demo: https://lawyers-startup.vercel.app/

Hazematic — Content and Career Automation | Independent developer

An automation project for generating posts, publishing them to Facebook, and discovering job opportunities on LinkedIn.

Workflows for post generation, Facebook publishing, and LinkedIn job discovery.

Sign-in: https://project-architecture-of-l-f.vercel.app/login

ZoomTech Interactive Programming | Independent developer

An Arabic programming-learning experience with interactive lessons, quizzes, exercises, and a Python playground running in the browser.

Interactive lessons, quizzes, exercises, and a browser-based Python playground; portfolio preview disables live AI.

Technologies: React, TypeScript, Tailwind CSS, Pyodide, Motion

3D Campus Map and Student Navigation | Significant team contribution · Technical volunteer

A campus-navigation project to help students find lecture locations.

Substantial team contribution. 3D campus map and lecture-schedule-based directional guidance; specific individual components not specified.

Technologies: JavaScript, Python, CSS

Student Portfolio Hub | Developer

A student hub for subject-based competition and rankings.

Built a hub with subject-based rankings and subscription-linked addition to teachers' WhatsApp groups.

Flight Booking Application | Independent developer

A flight-booking application developed independently.

Independently developed; additional features and technologies not specified.

EDUCATION

University of the People (online) — B.Sc. Computer Science | October 2022 – September 2026 | CGPA 3.65. Scholarship recipient; completed September 2026.

East Port Said National University — Faculty of Computer Science | September 2024 – Present | GPA 3.35. Third-year student. Joined because the University of the People degree was not accredited in Egypt at the time.

TRAINING AND CERTIFICATIONS

- Web Development using MEAN Stack — National Telecommunication Institute (2026)
- Web Development with React.js — Information Technology Institute (2026)
- UI/UX Design — NTI Scholarship (2026)
- Python · Level 1 — Information Technology Institute (2026)
- Advanced C++ — MCIT Training Grant
- Next Generation Tech Booster — Udacity Scholarship Program (2023)
- Youth Advocacy Program — Africa Matters

SCHOLARSHIPS AND ACHIEVEMENTS

University of the People Computer Science Scholarship (2022–2026); DECI Scholarship Recipient (2023); Rise Challenge Finalist (2023); Egyptian Beaver Competition: 370/400 (2023).
